

**TAB OPEN-EDGED MAIL
EASILY, EFFICIENTLY, AND
ECONOMICALLY.**

STAND ALONE TABBER

HT12

What do you do with outgoing mail that isn't going in an envelope, such as trifold brochures or folded sheets? Hasler's HT12 tabber offers an inexpensive alternative to envelopes and is great for mass mailings of brochures, newsletters, double postcards and more.

The HT12 places an adhesive tab on folded documents for easy transportation and mailing, and is often used by businesses to send advertisements, promotional items and many other non-traditional pieces of mail. Its built-in feeder system means easy set up and fewer feeding issues, and its small, mid-range table top footprint makes it the perfect assistant for letter shops, small mail houses and in-house use.

Features that save you time and money:

- Complies with USPS regulations
- Automatically applies adhesive tabs or wafer seals for quick processing
- Can be used in tandem for two-up tabbing
- Easy to set up and operate

**Tab a variety of media
at speeds up to 12,000
pieces per hour!**

HASLER
America's better choice.®

HT12

A VERSATILE, RELIABLE, MEDIUM VOLUME, DESKTOP TABBER

Process mail quickly with throughput speeds up to 12,000 trifolds per hour.

Efficient operation with built-in bottom feeder for continuous loading.

Multiple tabbing options applies paper, clear, or translucent tabs, with or without perforation.

Automatic size adjusting accepts tabs from 5/8" to 1 1/4" and accommodates rolls of up to 10,000 tabs.

Accepts various types and sizes of media as small as 3" x 5" to as large as 17" x 18", and up to 5/32" thick.

Automatically tracks the number of items processed with a resettable 5-digit item counter.

Optional add-on features: The HT12 can be used with optional processing equipment for maximum productivity. Use our optional tandem kit for dual tabbing applications, or our HUCNV conveyor and catch tray accessories to further increase office efficiency.
