

# APPLICATIONS

**Mail Center**  
Active Document Management

## Mail Centers

Your mail center is the hub, linking customers, vendors and company personnel. Moving documents efficiently. Providing effective flow of hard copy circulation with greater speed and accuracy. Uncompromising quality has earned Hamilton Sorter its place as the leading manufacturer of furniture systems for mail centers and other active document areas. Each installation carries our limited lifetime warranty backed with 30 years of integrity and experience.

*Full-depth shelves are supported at 1" intervals permitting quick and easy adjustment. Shelves available in black, grey and brown to match module laminates.*

## Copy Centers

Hamilton Sorter's sturdy aluminum framed consoles provide the ideal basis for your copy center, kit building or literature fulfillment area. Add sort modules, platforms or overhead storage units for processing large volumes of paper documents.

*Our aluminum extruded frame prevents the unsightly effects of a ding-and-chip prone environment and protects laminate worksurfaces*

## Satellite Mail Stations

Satellite mail stations divide mail and document distribution across departments, floors or even separate campus locations.

A wide variety of laminate selections and the ability to option-in custom accents provide a front office look to your interdepartmental and satellite mailing operations. Also can double as support stations for copy machines, network printers, fax machines as well as collating and preparation stations.

*Add optional slots to our satellite mail station credenzas for easy sorting of outbound packages such as UPS and Fed-Ex envelopes and interoffice mail.*

## Document Processing Casework

A variety of document storage options on our base and upper cabinets provide the tailored solution for your copy center, kit building or refreshment area. Hamilton Sorter document processing casework combines the aesthetic of built-in millwork without the extended lead times and designer liability common with custom mill-work applications.

*Color-coding enhances sorting accuracy. Shelves are complete with full-width, encased index strips. Choose from 10 assorted colors.*

## Custom Solutions

If your project requires custom solutions, let the engineers at Hamilton Sorter design a system to your precise needs. We can build our sort modules "to-spec" for cut-out wall openings or to place around architectural barriers such as support columns. Benefit from our 30 years of experience in the design and installation of document processing casework systems for active document management.

*Choose from up to three shelf sizes, standard for 8<sup>1</sup>/<sub>2</sub>x11 size documents, legal for 8<sup>1</sup>/<sub>2</sub>x14 size documents and oversize for larger inbound items*

# 5 DAY PRIORITY

## CUSTOMER SATISFACTION BEGINS

with a reliable flow of information. Your mail center is the hub, linking customers, vendors and company personnel. Moving documents efficiently. Providing effective flow of hard copy circulation with greater accuracy and speed. At Hamilton Sorter, we give your mail center needs PRIORITY status, shipping your furniture five days from receipt of complete order – with no compromise to the quality that has earned Hamilton Sorter its place as the leading manufacturer of MailCenter and Communications Furniture. Each PRIORITY piece carries our limited lifetime warranty backed by over 30 years of integrity and experience.

*Our aluminum extruded frame prevents the unsightly effects of a ding-and-chip-prone environment and protects laminate worksurfaces.*

Ours alone, the pin cam locking system safely secures sort module at any position on the console. Easily readjusts toward front or rear to accommodate the 'reach' of varying personnel.

Flooring shown is ComforTech® Anthem™ by Johnsonite®. Its cushioned layer reduces foot and leg fatigue and provides outstanding sound absorption.

Full depth shelf supports at 1" intervals are the best 'guides' in the industry permitting quick and easy adjustments as needed.

**LOADED WITH ESSENTIALS, YET COMPACT.** This L-shaped mail center maximizes productivity within a minimal walking space.

Components reconfigure easily and are sized for a variety of needs. Sort modules are available in six heights and widths.

# DOCUMENT MANAGEMENT SPECIALTIES

## EXECUTIVE MAIL STATION

EMC693030 Credenza &  
05-30E12 Sort Module

Drop off and retrieve mail within departments at our self-contained station. Full-laminate finish blends tastefully with executive suite furnishings.

*Convenient under-counter storage hides supplies and mail drop-off bins.*

## MANIFEST SHIPPING STATION

MAN6030

At 60" wide, this station manages all automated shipping needs with ample space for monitor, keyboard and printers. High pressure laminate worksurface resists wear and tear of day-to-day use.

Also available in 48" width, MAN4830 and 72" width, MAN7230.

## **BULK SORT UNIT AB482061**

---

For a speedy first sort, the angled shelves of our bulk sort unit provide space for numerous easy-access bins.

## **FREESTANDING SORT MODULE FSM481276SB**

---

With our quick-adjust shelving system, you'll stock and retrieve forms, literature and supplies with ease from this space-saving, multi-purpose unit. Available with standard, legal or oversize shelves. Shown with bottom storage area.

# COLOR SELECTIONS

## FUNCTIONAL AND DURABLE

Hamilton Sorter's PRIORITY collection of decorative laminates allows you to coordinate worksurfaces and vertical sides for a custom look. Only the finest high pressure laminates are used on worksurfaces to eliminate chips and dents.

*Colors shown are approximate representations. For precise colors, ask your dealer for a Hamilton Sorter laminate chain.*
